AYANSH KR YADAV

Full Stack + GenAI Engineer | Kolkata, India

+91 8873296985 ayanshkryadav25@gmail.com linkedin.com/in/chunnukryadav github.com/ayansh-kr-yadav ayansh.online

Summary

Full Stack Engineer with strong CS fundamentals (DSA, OS, Computer Networks, OOP) and hands-on experience building production-grade Generative AI systems — RAG pipelines, autonomous multi-agent systems, and scalable web applications. Core stack: TypeScript, Python, C++, LangChain, LangGraph, Qdrant, and Neo4j. Shipped 2 end-to-end AI projects. Co-authored a Springer-indexed research paper.

Skills

Core CS: Data Structures & Algorithms, Operating Systems, Computer Networks, OOP, DBMS
Languages: C++, Python, TypeScript, JavaScript, Java
GenAI & LLMs: RAG, GraphRAG, LangChain, LangGraph, AI Agents, MCP Servers, Guardrails, Fine-tuning
Frontend: Next.js (SSR/SSG), React.js, Tailwind CSS, TypeScript, JavaScript (ES6+)
Backend & Databases: Node.js, Express.js, FastAPI, PostgreSQL, MongoDB, Qdrant, Neo4j
Cloud & DevOps: Docker, Nginx, AWS (EC2/ECS/ECR), Git/GitHub, Linux

Experience

YBI Foundation **2023**
Data Science, ML & Analytics Intern (Remote) *India*

- Built ML classification pipelines using Scikit-learn and Pandas, achieving **91% model accuracy** via feature engineering and cross-validation across 5+ datasets.
- Automated EDA workflows using Python, cutting manual analysis time by ∼**40%** and delivering insights to 3 internal project stakeholders.

Projects

GraphRAG Production Pipeline | *LangGraph, Qdrant, Neo4j, MinIO, Docker* **2025**

- Architected a 5-service containerized system with hybrid retrieval (vector + graph), achieving **35% higher precision** over standard RAG benchmarks.
- Integrated guardrails, PII detection, and RAGAS evaluation; LLM-as-a-Judge scores exceeded **0.85** across **500+ test queries**.

AI-Powered E-Commerce Platform | *Next.js, Node.js, Express, MongoDB, Qdrant, Docker* **2026**

- Delivered a full-stack platform with SSR/SSG, JWT role-based auth, and an admin dashboard covering product, inventory, and order management.
- Built semantic search with Qdrant vector embeddings, indexing **500+ products** and returning natural-language results in **under 300ms**; deployed via Docker.

Research, Certifications & Leadership

- **Co-Author, Springer (AdComSys 2024)** – "Enhancing Accommodation Discovery: A Hybrid Approach to Paying Guest Recommendation Systems"
- **Machine Learning Specialization** – DeepLearning.AI & Stanford Online (Andrew Ng), Coursera
- **IT Department Representative, Training & Placement Cell** – University of Kalyani: Coordinate placement drives and logistics between the T&P Cell and IT department students.

Education

B.Tech in Information Technology **2023 – 2027**
University of Kalyani (registered as Chunnu Kumar) *CGPA: 8.0/10*

Diploma in Computer Science & Technology **2021 – 2023**
The Calcutta Technical School, WBSCTE *CGPA: 8.1/10*
